Jan:

I wanted to get back to you, although I am incorrigibly late doing so, and let you know the final outcome on the AS9100C audit. I'll let the results speak for themselves; attached is Wyvern's certificate!

It was a smooth audit, as audits go, and I must say that the entire quality management system concept has taken on new meaning around here. The audit itself produced only three minor non-conformances, which were cleared and accepted as soon as they were posted to PRI's (Registrar) site.

And in particular, I have you to thank for the seamless transition into Rev C and the renewed interest that I personally have with AS9100. All that you have done to prep Wyvern and me for this task was well received and greatly appreciated.

Thanks to you and the principles of AS9100, I have a new tool set to aid in my defense of quality, manufacturing, and the successful management of risk in the corporate world.

If you ever need a reference or an endorsement, feel free to send a request my way. I will be more than happy to give you and your company a sterling rating!

Jim Hunt
